Work History

2018-05 - Current

Web Developer

HappyPunkPanda, San Salvador

- Converted design assets into component-based HTML, CSS and JavaScript.
- Planned website development, converting mockups into usable web presence with HTML, CSS and JavaScript coding.
- Installed required plugins and additional coding to fit final design and functionality requirements.
- Conceived and built optimized landing pages in HTML and CSS, including wordpréss integration and cross-browser compatibility, to support marketing.

- Leveraged strong understanding of WordPress core to manipulate admin and theme components.
- Collaborated with designers and other developers on project specifications, strategy and execution to build new WordPress pages and update existing ones.
- Create and edit views on ruby on rails projects.

2013-10 - 2017-04

Web Developer

DCcolorWeb, Santa Tecla, La Libertad

- Coded websites using HTML, CSS, JavaScript and jQuery languages.
- Converted graphic designs to usable web images using Adobe Photo Shop.
- Implemented website maintenance, content management, update and security resource tutorials to assist end-user training.
- Determined coding requirements for site creation, including e-commerce capability, security and specialized scripts.
